

2SHB 1795 - H AMD 691

By Representative Kenney

NOT CONSIDERED 04/22/2011

1 On page 43, at the beginning of line 12, strike all material  
2 through "publications" on line 33 and insert the following:

3 "The higher education coordinating board and the state board for  
4 community and technical colleges shall convene a work group, with  
5 representatives from higher education institutions, to develop a plan  
6 for creating common course numbering for all common lower division  
7 courses at all institutions of higher education. The plan shall  
8 include, but not be limited to the following: (1) identification of  
9 key issues and barriers to implementing common course numbering; (2)  
10 cost estimates related to implementation of common course numbering;  
11 (3) faculty and staff time required for development and maintenance of  
12 common course numbering; (4) a definition common courses; and (5) an  
13 implementation timeline. The plan shall be delivered to the higher  
14 education committees of the legislature and the governor by December  
15 1, 2012"

16

EFFECT: Replaces the requirement to establish a common course numbering system with a requirement that the Higher Education Coordinating Board and the State Board for Community and Technical Colleges convene a work group with representatives from higher education institutions to develop a plan that identifies key issues and barriers for implementing common course numbering, cost estimates, faculty and staff time required, a definition of common courses and an implementation timeline.
